

著者	所属	論文名	掲載
大野 和子	東京大学大学院 農学生命科学研究所	Effect of bacterial metabolism in the intestine on colorectal tumors induced by E1,2-dimethylhydrazine in transgenic mice harboring human prototype c-Ha-ras genes	vol.20, n1, 2001, 51-56
西川 秋佳	国立医薬品食品衛生研究所	Reporter gene transgenic mice as a tool for analyzing molecular mechanisms underlying experimental carcinogenesis	vol.20, n1, 2001, 111-115
辻 晋吾	大阪大学大学院病態制御内科	Cyclooxygenase-2 upregulation as a perigenetic changes in carcinogenesis	vol.20, n1, 2001, 117-129
金沢 昌満	久留米大学外科	Significance of cysteine rich transcription factor (CRTF) in the synthesis of tissue inhibitor of Metalloproteinases 1 (TIMP 1) in gastrointestinal cancers.	vol.20, n1, 2001, 145-151
松岡 翼	大阪市立大学第1外科	Effect of matrix metalloproteinase inhibitor on a lymph node metastatic model of gastric cancer cells passaged by orthotopic implantation	vol.20, n2, 2001, 213-218
福井 里佳	札幌医科大学第1外科	Adenosquamous carcinoma of the rectum: Report of two cases	vol.20, n2, 2001, 293-296
澤井 照光	長崎大学第1外科	Instability of chromosome 17 and p53 locus in non-familial colorectal cancer with multiple primary malignancies	vol.20, n3, 2001, 401-405
武末 文男	福岡歯科大学外科学講座	Development of Colonic neoplasms and expression of p53 and p21 proteins in experimental colitis of mice induced by dextran sulfate sodium	vol.20, n3, 2001, 413-418
柳内 良之	札幌医科大学第1外科	Vascular endothelial growth factor C promotes lymph node metastasis by human gastric carcinoma in mice	vol.20, n3, 2001, 419-428
国安 弘基	広島大学第1病理	Prospective study of Ki67 labeling index in the mucosa adjacent to cancer as a marker for colorectal cancer metastasis	vol.20, n4, 2001, 543-548
福島 啓	札幌医科大学第1内科	Frequent alterations of the beta-catenin and TCF-4 genes but not of the APC gene in colon cancers with high frequency microsatellite instability	vol.20, n4, 2001, 553-559
